SKILLS

Technical

- Python (PyCharm), Arduino, PCB Design (KiCad); game developing (Godot & Unity); 3D modeling (Blender & Fusion 360), 2D design and editing (Inkscape, Adobe Illustrator & Filmora), IoT Prototyping, Woodworking.

Soft Skills

- Leadership, Teamwork, Critical Thinking, Creativity, Discipline, Communication, Respect, Adaptability.

EDUCATION

School Garden

March 2011- December 2012

7075 Juan Pablo II

March 2013- December 2021

GPA 3.8 | Ranked top 10 out of 150 second year high schoolers, selected to apply to the COAR schools.

- 1st at regional level of national cultural-artistic competition “Juegos Florales 2021” in visual arts.
- Nominated scholar police during four consecutive years (2016-2019).

Colegio Mayor Secundario Presidente del Perú (COAR Lima Metropolitana)

March 2022 - December 2024

GPA 4.0 (Average of Transcript's ADs) | Ranked top 20% in class of 24'

- IB Diploma (38/45): History (5), English B HL (6), Lang & Lit (6), Visual Arts (7), Mathematics, Analysis and Approaches SL (6), Biology SL: 6, Extended Essay Lab research (A), EE/TOK (2 points).
- Awarded Best Reader (2022) contest out of 900 students, Visual Arts acknowledgment (2024).
- Nominated class Delegate (2022, 2024).

PROJECT WORK EXPERIENCE

INT-S (2024) — Independent Innovation Project

- Designed and prototyped energy-harvesting sports shoes using triboelectric nanogenerators (TENGs) to convert kinetic energy into mobile device charging.
- Integrated mechanical design, electronic components, and sustainability concepts to demonstrate practical renewable energy generation at a wearable scale.
- Electronics, Arduino, TENGs, 3D Printing, Fusion 360, Blender

SIFT – Samsung Solve for Tomorrow (2023) — Team Innovation Project | Finalist

- Co-developed 3D-printed sustainable splints for stroke rehabilitation, enabling cost-effective and eco-friendly medical support for patients in a local hospital María Auxiliadora in San Juan de Miraflores.
- Our team 3DR presented the project to mentors and investors; project received Global Youth Action Fund support for further development during year 2024.
- Founded an Innovation Club to continue the project's legacy before graduating from high school.
- 3D Printing, team-work project management, CAD Design, Photogrammetry

The Knowledge Society (TKS) (2024–2025) — Global Internship Program | Full Financial Aid

- Intern in a 10-month program with \$6,698 financial aid, receiving mentorship from leaders at MIT, Harvard, Google, and SpaceX.
- Spring Global Challenge 2025 Semifinalist in competition hosted by Microsoft, Samsung, and Maverick with an enzyme-engineering project developing bio-paint for ship coatings in the maritime industry.
- Won TKS Referral Program Moonshot with “Perla” project in Metaverse and Wearable Tech categories; awarded AI Meta glasses.
- Founded UWTON brand to develop human-centered technological projects, as intersection of technology, creativity, and entrepreneurship, all recorded and showcased in my website.

ADDITIONAL INFORMATION

Certifications

- Cambridge English B2 First Certificate in ESOL international (24th Sept, 2024). Duolingo English Test Upper intermediate, CEFR B2 (13th January, 2025). IELTS, CEFR C1 (30th September, 2025).
- Cisco Networking (2022) and Cisco Python Fundamentals (2024) certification of course completion.
- Speaker in ECOSOC Youth Forum 2025 by the ONU, presenting “Solve for SDGs: How Can Youth Harness the Quintet of Change”.

Awards/Activities

- Future Generation of Scientists - FGS (2024) global program in South Asia timezone; collaborated in multidisciplinary teams on cutting-edge technology projects with AI applications in cybersecurity.

- Certified Outreach Officer and head of Innovation & Analyst team at Center for Strategic Innovation and Future (CSIF, 2025), international NPO empowering youth to innovate for sustainability and impact, project management and research with Stanford and UC Berkeley students.
- President of environmental and sustainable development committee policy at Youth Andean Parliament (2022–2024), and cultural exchange with students from Chile, Ecuador, Colombia, Bolivia, and Peru.
- Medalist in Model Peruvian Congress (2024) simulation of parliamentary debates and policymaking focused on sustainable initiatives in economics.
- Finalist in International Mathematics Olympiad SAMMAT (2024) competition organized by ALAR (Latin American Russian Association); awarded recognition and certificate.
- Participated every year in ONEM Olympiad and Aceros Arequipa Math Olympiad (2022–2024).

Community Service

- SigMath ONG (2024): Marketing & Design Director; developed math materials for younger students.
- Environmental volunteering in last 2 years in beach cleaning (Ubuntu NGO), tree planting (Lima Municipality “Perú te quiero limpio”), volunteered in cat and dog shelters (Youth initiative “Huellitas Apristas”).
